

Drowning

Call for help & **Call ambulance**
Check: **ABCDE**

Clear out the mouth and keep a close eye on breathing to ensure that it has not stopped.

Ensure an **open airway** and that the person is breathing.

Tilt the head, check the mouth, and lift the chin.

Check for breathing for up to 10 seconds.

If the **victim is not breathing**, provide rescue breathing before moving on to **full CPR** as necessary.
